

SAFETY DATA SHEET

Virbac New Zealand Limited

Tyloguard

Section 1: Identification of the Substance and Supplier

Product name:	Tyloguard
Recommended use:	For the treatment of bacterial and mycoplasma infections caused by Tylosin-sensitive organisms in cattle, pigs, sheep & goats. Restricted Veterinary Medicine.
Company details:	Virbac New Zealand Limited
Address:	26 -30 Maui St, Pukete Park, Hamilton
Telephone number:	(07) 849 6782
Customer service toll free number:	0800 VIRBAC (0800 847 222) (Mon – Fri, 8.30 am – 4.30 pm) www.virbac.co.nz
Emergency telephone number:	National Poison Center: 0800 POISON (0800 764 766) New Zealand Emergency Service 111
Date of preparation:	27 June 2017

Section 2: Hazards Identification

Hazard classifications:	6.4A, 6.5B, 9.1A, 9.2D
Priority identifier:	WARNING KEEP OUT OF REACH OF CHILDREN ECOTOXIC
Secondary identifiers:	6.4A = Cause serious eye irritation 6.5B = May cause an allergic skin reaction 9.1A = Very toxic to aquatic life 9.2D = Harmful to the soil environment
Precautionary information:	Keep out of reach of children.

Read label before use.
Wash thoroughly after handling
Wear eye and face protection
Avoid breathing mist/spray
Contaminated work clothing should not be allowed out of the workplace
Avoid release to the environment
Collect spillage

Section 3: Composition / Information on Ingredients

Product components:	Ingredients	CAS Number	Proportion (% w/v)
	Tylosin base	1401-69-0	20.0
	Benzyl alcohol	100-51-6	2-5

Section 4: First Aid Measures

Eye Contact:	Immediately hold eyes open & wash continuously for at least 15 minutes with fresh running water. Ensure complete irrigation of the eye by keeping eyelids apart & away from eye & moving the eyelids by occasionally lifting the upper & lower lids. If discomfort persists, seek medical attention. Removal of contact lenses after an eye injury should only be undertaken by skilled personnel.
Skin Contact	Immediately flush body & clothes with large quantities of water. Quickly remove all contaminated clothing & footwear. Wash affected areas with water (& soap if available) for at least 15 minutes. Obtain medical attention if irritation develops. Wash clothing before re-use.
Inhalation:	Remove to fresh air. Lay patient down. Keep warm & rested & observe for any signs of an allergic reaction. If breathing is difficult, obtain medical attention.
If swallowed:	Contact doctor or National Poisons Centre (0800 764 766). DO NOT INDUCE VOMITING. If available, administer 8 heaped teaspoons of activated charcoal with 2-3 glasses of water. Lean patient forward or place on left side (head down, if possible) to maintain open airway and prevent aspiration. Refer for medical attention without delay. Provide a copy of this document to the practitioner.
Workplace facilities:	No specific workplace facilities required.

Required instructions:	Avoid contact with skin and eyes. If skin or eyes irritation occurs wash off immediately.
Notes for medical personnel:	If swallowed do NOT induce vomiting. Contact a doctor or call the National Poisons Center on 0800 POISON (0800 764 766)

Section 5: Firefighting Measures

Type of hazard:	Non-flammable
Fire hazard properties:	May emit toxic fumes when exposed to fire or heat. Flash point: not known. Ignition temperature 412°C
Regulatory requirements:	Do not handle until all safety precautions have been read and understood.
Extinguishing media and methods:	Water spray or fog / foam / dry chemical powder / carbon dioxide.
HAZCHEM:	N/A
Recommended protective clothing:	Breathing apparatus for fire only.

Section 6: Accidental Release Measures

Emergency procedures:	Wear sufficient respiratory protection where necessary and protective clothing to minimize skin exposure. If possible contain the spill. Place inert absorbent such as vermiculite, sand or dirt onto material.
Environmental precautions	Spilled product & washings must be prevented from entering any drains or waterways, or from contaminating the ground.
Procedure for a spill	Keep all bystanders away. Wear appropriate protective gear. Re-position any leaking containers to minimise any further leakage. Dam and absorb spill with an absorbent material (sand or soil). Shovel the absorbed material into a drum or similar robust container. Dispose of in an approved landfill. Decontaminate the spill area with detergent and water and rinse with the smallest volume of water possible.

Section 7: Handling and Storage
--

Precautions for safe handling:	Wash hands thoroughly after handling. Wear protective gloves when handling. In case of inadequate ventilation wear respiratory protection. Contaminated work clothing should not be allowed out of the workplace. Avoid contamination of any water supply with chemical or empty container.
Approved handlers:	Not required
Conditions for safe storage:	See below
Store site requirements:	Keep out of reach of children. Store in original container, tightly closed, away from foodstuffs. Store upright in a cool place. Do not freeze. Protect from light. Store locked up.
Packing:	No specific packaging requirement.

Section 8: Exposure Controls / Personal Protection

Workplace Exposure Guidelines:	No working exposure standards have been established.
Exposure standards outside the workplace	No tolerable exposure limit (TEL) or environmental exposure limit (EEL) are set for this substance at this time.
Engineering controls:	N/A
Personal protective Equipment (PPE):	When handling bulk quantities, wear suitable gloves, protective clothing, to avoid prolonged breathing of dust or contact of dust with skin. Wash thoroughly with soap and water after handling.

Section 9: Physical and Chemical Properties

Appearance:	Clear, straw-coloured or yellowish to orange viscous solution.
Odour	Faint, musty
Flash point	Not known
Ignition temperature	412°C
Specific Gravity:	1.067 g/L
pH:	8 – 10
Solubility in Water:	Soluble in water

Flammability:	Not highly flammable, but may burn
Combustibility:	May be combustible
Explosive properties	Not explosive
Oxidising properties	Not oxidizing
Corrosiveness	Not corrosive

Section 10: Stability and Reactivity

Stability of the substance:	Stable under normal conditions of use.
Conditions to avoid	Temperatures exceeding 60°C or less than 2°C.
Material to avoid:	Solvents which may degrade the plastic container. Strong oxidising agents (e.g. peroxides, permanganates, nitric acid etc).
Hazardous decomposition products:	On heating to decomposition, emits toxic fumes.
Hazardous polymerization:	Does not occur
Specific Data	N/A

Section 11: Toxicological Information

Oral	Rat: no deaths or toxicity reported at 535 mg/kg.
Skin	Rabbit: no deaths or toxicity reported at 2140 mg/kg, slight irritant.
Inhalation	Rat: no deaths at 1050 mg/m ³ for 1 hour.
Eye contact	Rabbit: slight irritant.

Section 12: Ecological Information

Very toxic to aquatic life	Very ecotoxic in the aquatic environment (Tylosin is very toxic to algae, but is practically non-toxic to fish and crustaceans). No evidence of accumulation in aquatic organisms.
Harmful to the soil environment	Slightly ecotoxic in the soil environment because of its lethal effects on a range of micro-organisms. Does not persist in the environment owing to degradation & photolysis.

Section13: Disposal Considerations

Disposal information:

Dispose of by use.
Triple or pressure rinse container including exterior and cap. Dispose of rinsate and any undiluted chemical according to local Government requirements.
Dispose of empty container by wrapping with paper and placing in the garbage, in accordance with the Territorial Local Authority. Avoid contamination of any water supply with chemical or empty container.

Section14: Transport Information

Transport information:

Under the HSNO Control EM1, the transport of quantities of this product in excess of 1L must comply with Land Transport Rule 45001 & Maritime Rule 24A in terms of labelling & documentation. Transport of any quantity by air must comply with Civil Aviation Rule 92.

Section15: Regulatory Information

Registration number:

A009713

For conditions of registration see <http://www.foodsafety.govt.nz>

HSNO Classification:

ERMA Approval Code: **HSR002368**
Toxic: T1, T2, T4, T5, T7, E1, E5.
Identification: I1, 19, 116, 117, 118, 119, 121, 123, 128, 129
Packaging: P1, P3, P13, P15, PS4
Disposal: D4, D5, D6, D7, D8
Emergency management: EM1, EM6, EM8, EM11, EM12, EM13

For a full listing of controls see <http://www.epa.govt.nz>
